

Scrubber 50 Cleaning Robot

Ideal for medium to large indoor spaces: shopping centres, supermarkets, office buildings, hotels, hospitals, exhibition halls, etc.

SPECIFICATIONS

Dimensions (LxWxH)	810 x 700 x 1070 mm
Max. Runtime	Scrubbing (3hr); Dust Mopping (8hr)
Cleaning / Recovered Water Tank	30 / 24 Litres
Charging Time	2 hours
Cleaning Width	460 mm
Gradeability	4.6°

KEY FEATURES

3-in-1 Floor Cleaning

Integrates 3 cleaning solutions in one machine: scrubbing, sweeping, and dust mopping.

5-Stage Filtration System

Our multi-stage water recycling filtration system reduces fresh water usage by up to 80%. When used daily, can save up to 2,000 litres of water per run.

Minimal Human Intervention

Optional workstation for self-docking, power charging, water refill and discharge, as well as being equipped with smart navigation and obstacle avoidance.

Superb Productivity

Say goodbye to wasted time and laborious cleaning routines with a cleaning efficiency up to 1,490 m²/h.

Ergonomic Manual Mode

Easy manual operation - effortlessly walking and steering the machine with the ergonomic handle. During manual mode, the clever interface supports the user to switch cleaning modes and adjust equipment levels.

Quick Release Components

The squeegee assembly and filter components feature a quick-release design for tool-free disassembly and reassembly within seconds.
